

MESSAGE BOARD

Message Boards are available in communities for members and from the **Campus** tab > **General** sub-tab for campus members. The board is categorized into **Forums**, which are in turn divided into specific discussion **Topics**. **Posts** comprise discussions; a sequence of posted responses to an initial post is a **Thread**. When you access the Message Board, the **Forums** tab is displayed first.

Forums | Latest Messages

Click the **Latest Messages** tab to see the latest messages throughout the entire Message Board.

Amir Salim (01/21/2004 03:06 PM) [Floats - a question](#)

Can our own Student Activities Board have a float, or are we just helping others to get theirs in the parade?

Campus Administrator (01/21/2004 03:57 PM) [Re: Floats - a question](#)

We can, but I doubt we're going to have the first priority for the parade as there are others registered, assist with float and do the paperwork that comes with it.

These links access the **Message Board Detail** page, where links to other posts in the Thread are shown below message text.

OTHER MESSAGE BOARD FUNCTIONS

- Edit Message** - Message editing is only possible if two criteria are met:
 - The editor is the original author
 - No posts have been made in response to the original post
- Hide Message** - Available to the community host; hides message content, and inserts the following for the message title: "Original message is no longer available."
- Delete Message** - Available at any time to community host; deletes current message and all replies to it down the hierarchical tree.
- Retract Message** - Available at any time to message author; original title remains in place, but message content is replaced with "Message was retracted by author!"
