FINDING A STUDENT’S SAT SCORES IN COLLEAGUE GUI

Use the SASM screen to view the student’s information. Note that the SASM screen will always default to Field 1 Applications:

Click on the little box next to the Tests field to detail to the TSUM (Tests SUMmary) screen.
The First Tier of the TSUM screen has the SAT scores. If a student does not have SAT scores, you will need to proceed to the second tier to view the raw numbers of the CPT Math.

The Second Tier is the Placement Test Field and has the CPT (College Placement Test) results. The first level of this Field provides the scores for the reading comprehension and essay sections of the CPT. You may hit the down arrow on your keyboard to move down levels or you may use the scroll bar on the side of the field. Note that for this student there are no CPT Math scores because of the SAT Math scores in the First Tier.
Here is an example of a different student’s SAT Math score:

The following table will determine the proper Math placement based upon the SAT score. Please keep the student’s curriculum in mind when utilizing this table.

<table>
<thead>
<tr>
<th>SAT Math Score</th>
<th>Math Placement</th>
</tr>
</thead>
</table>
| 530 and higher                                     | Exempt from Accuplacer Testing  
Eligible for MAT 014 (may challenge), 101, 104, 107, and BUS 115.             |
| 530-559 and the student wants Precalculus          | MAT 014 (may challenge)  
Pre-calculus placement based upon Mathematics department diagnostic test |
| 560* or higher and the student wants Precalculus   | Exempt from MAT 014. Must take Diagnostic Test to beeligible for MAT 129A or 129.  
Eligible for MAT 116, 123.                        |
| 576-649                                            | Eligible to register for MAT 129 if NCWS demonstrates H.S. prerequisite of Algebra II. |
| 650 and higher                                     | Student may choose MAT 123, 129A, 129, 131 or 131A.                           |

* Students who fall back to MAT 014 based on the diagnostic test will be eligible for MAT 090/129A.
